

# Product Family Declaration

**Family Name:** WiFi Interface Converter Series

**Core Hardware:** ESP32-C3-MINI-1 module + 5V USB power + LED indicators

**Variants:**

- Model UART-WiFi-001: UART interface (GPIO pins for TX/RX)
- Model SPI-WiFi-002: SPI interface (GPIO pins for MOSI/MISO/SCK/CS)
- Model CAN-WiFi-003: CAN interface (GPIO pins for TX/RX with transceiver)
- Model RS485-WiFi-004: Dual RS485 interface (two 4-pin headers, A/B parallel bus, 10k bias, 120 $\Omega$  termination, TVS protection), supports Slave & Transparent Master mode

**Differences:** Only interface pins differ; RF antenna, power supply, PCB layout identical.

**Compliance:** All variants use same FCC ID: 2AC7Z-ESP32C3M1. No RF changes.

**Manufacturer:** WNetTech

**Date:** November 11, 2025
