

CONV-CAN(CAN-WiFi-003)

Note: This **Industrial WiFi & Serial Protocol Converter Series** utilizes the precertified radio module **FCC ID: 2AC7Z-ESP32C3MINI1**. All hardware variants(CAN, RS485, SPI, UART) share the identical RF core, antenna trace layout, and power management circuitry. The model **CAN-WiFi-003** serves as the representative model for compliance verification of this composite system.
